ARIZONA.

A Series of Letters From Arizona.—No. 2.

[From our own correspondent.]

There are at present six counties, and as each of these has its principal town, perhaps the best idea of the Territory to be had from a single article can be obtained from a description of these towns and the sources of their wealth and prosperity.

Tucson, then, the county seat of Pima county, is at once the largest, wealthiest and most important town in Arizona. It is built on a gravelly mesa, on the banks of the Santa Cruz river, about midway between the Gila river and the Sonora line, and is the centre of large agricultural, mining and commercial interests. The population is something over five thousand, two-thirds Mexican and one-third American, and it partakes, therefore, of the double character of the two people. South-eastern Arizona is the garden spot of the Territory for agriculture and stock raising. In the valleys of the Santa Cruz, Sonora, San Pedro and Gila rivers, there are large tracts of rich bottom lands that will produce all the grains and fruits of the tropical and temperate zones. Irrigation is necessary and as water is abundant in the rivers, failure of crops is unknown. The present is the driest year known to the oldest resident, which will take us back over half a century, and yet the first crop was excellent. By first crop is meant this—there are two rainy seasons here, one in winter and the other in summer. After the winter rains, grain, corn, etc. is planted and the crops harvested in May and June, so that after the July and August rains a second crop of potatoes and vegetables generally and corn is planted, and this is harvested in November. Well, this year the first crop of southern Arizona was better than average, but as there has been but little summer rain, the second crop, in most places, is but slight.

Between the river bottoms are extensive mesas, dotted with excellent springs, and on these, at present, about 40,000 head of cattle and 30,000 sheep are kept fat the year round on natural grasses and without shelter. Over 200,000 pounds of wool have been shipped from Tucson this last season to San Francisco and the eastern States. The cattle are sold to the settlers, the army and the Apache Indians on the San Carlos reservation. Many thousand more cattle can find excellent ranges in this section; but it is indispensable to first come and find a location before driving in large herds.

Tucson is the center of a great mining section. Just west of the town, in the Sierra del Tucson, are large mines of silver, copper and lead which have been idle for some years because of lack of capital and the expense of transportation. These are now again being opened and will ere long be the scene of considerable industry. In the immediate vicinity are three very large and valuable mines, viz: the Lee & Scott silver mine, the Yuma lead mine and the Young American copper mine. South of town from ten to twenty miles distant are found the San Xavier and Pima mines, both immense ledges of low grade ore, yielding say from 30 to 200 dollars per ton, on which work is now progressing. Further south still, about thirty miles, are the famous Santa Rita mountains, where are located the richest placer mines yet found—the Aztec and Tyndall and various other mining districts in all of which there are miners hard at work opening up numerous ledges. Going still south and tending a little to the east are found the French, Alta and Patagonia or Mowrey mines which are large mines of galena bearing silver in good paying quantities. The Alta is the only one now being developed, but the French and Patagonia have been worked for years, in fact they are old Mexican and Spanish mines that have produced large quantities of bullion. West of the Santa Cruz river and near the Sonora line, is by far the liveliest portion of southern mineral activity. Here are found the Old Blanco, Ceno Colorado, Guija, Arisaca and Yellow Jacket districts, in all of which many mines are yielding large quantities of rich rock. The Yellow Jacket gold mines and the Warsaw silver mine are the best developed of all. A furnace for the Warsaw is nearly completed and will be running soon, and there is a ten stamp gold mill at the Yellow Jacket working steadily and profitably. There is a fine opportunity here for a first-class custom silver mill, as rich ore is abundant and every desideratum at hand.

Notwithstanding these sources of its revenue, Tucson at present depends chiefly upon its commercial importance for its prosperity. It may appear strange at first, but nevertheless Tucson is the successful rival of Guaymas and has captured what is known as the "Sonora trade." The merchants of the Mexican State of Sonora have found it to their advantage to buy in Tucson and therefore this out of the way town supports

some of the heaviest mercantile houses on the Pacific Coast outside of San Francisco. This trade amounts to from \$500,000 to \$750,000 a year, and to supply the demand the largest firms have to carry stocks valued at from \$150,000 to \$200,000 continually. With the completion of a railroad through Arizona it is expected that this trade will increase and, as no town further north can drive the trade from its present quarters and the railroad will not pass south of here, the future of Tucson seems to be far better assured than the generality of frontier settlements.

FROM THE FAIR.—A number of Carsonites returned from Reno last evening and express themselves in unmeasured terms of disgust about the races, which as a general thing form one of the main features at a State Fair. They said that every race which was started proved a failure, and that old horse-men pronounced the whole affair "a bilk." We suspect, however, that if the whole truth was known some of these disappointed visitors bet their money on "Raphael," who is a Carson horse, and who, from being a favorite in the pools at the rate of 100 to 20, or thereabout, and after winning the first heat, was distanced by "Sooner," a Humboldt horse. At all events a gentleman who attended the Fair yesterday and who does not care which horse wins, speaks in high terms of satisfaction of what he saw.—Carson Appeal.

The Appeal is right in its criticism. Tricks will be played in horse racing and it would be impossible to have a fair held in any state and the horse-men not put up some job. The race alluded to above was one in which the "job" was defeated.

Gen. Grant intends to go to sea for his health. He will spend the winter in the Adriatic and Mediterranean.

The controversy over contested seats in Congress promises to develop much partisan spirit, an article which should in high places be a discount.

The war in the East has produced nothing fresh for several days. Mud and indecision is the trouble.

Cooking and Robinson, having again tied, proceeded to shoot off again with the following result:

Cooking...11010—3
Robinson...01101—3

Cooking's third bird was retrieved by Gill very cleverly, but their being a doubt raised, the bird was picked and no shot marks found. The bird was then declared lost. This made Cooking and Robinson tie once more. They shot off again as follows:

Cooking...000—0
Robinson...011—2

Robinson having got two birds out of three it was seen that Cooking could not overtake him, and the Gold Medal was awarded to Benjamin Robinson of Virginia. Thomas Cooking took second prize, and C. H. Stoddard of Reno got away with the third. H. G. Parker as a member of the Agricultural Society announced that time was short in which to finish the match, and offered to relinquish his claim upon the 4th prize, if the remaining three would decide without shooting. Messrs. Gill, Gibson and Pratt then decided the remaining prizes as follows: Gill 4th prize, Gibson 5th prize, Pratt 6th prize.

The entries for match No. 4, five double rises at 18 yards, were then announced, as follows: A. C. Pratt, Genoa; Dr. Carver, San Francisco; Dr. Schnable, E. A. Schultz, Ned Harris, W. D. C. Gibson, Gold Hill; T. Diamond, Virginia City; A. Hooper, —; C. H. Stoddard, Reno; C. Smith, Stockton; Dr. Robinson, J. S. Kaneen, M. Gill, Virginia. The following is the score:

Pratt...0-0 1-0 1-0 0-0 1-1—4
Carver...1-0 1-1 0-0 1-1 1-1—7
Schnable...1-0 1-1 0-0 1-1 1-1—7

FOR THE LADIES.—Mrs. Julia Prescott gives as a premium to the finest dressed lady at the State Fair ball, given next Friday evening at Smith's Academy of Music, a fine black Dolman, lace trimmed, value \$40. This article may now be seen on exhibition at Mrs. Prescott's establishment next door to the Post Office. Mrs. Prescott means to encourage elegant as well as tasteful dressing on the part of the ladies. She also by the above premium adds to the dress of the Fair ball.

Races—Third Day.

Ballot Box, Hazel and Echo—Largest Attendance Yet.

The weather seems to have been specially ordained for the success of our Fair, and in consequence the attendance is largely increasing day by day.

To-day, Wednesday witnessed the largest attendance by far of the week. The grand stand was well filled and a notable increase in the number of ladies present was generally remarked.

For the two-mile and repeat Ballot Box, Hazel and Echo came to the score, and sold in the order named, Ballot Box being a large favorite. After two false starts the horses got off with an even start, Echo pushing Ballot Box warmly for the first mile and a half. After this Hazel came to the front and contested the finish with Ballot Box. The little sorrel however fell short, Ballot Box winning with ease. Time 3:47 1/4. After this heat pools were dollars to cents on the favorite. \$20 to \$5, and selling like hot cakes.

The horses got off on an even start. Ballot Box broke down on the first mile. Hazel winning—time 4:05 1/4. Ballot Box distanced.

Race will be decided at 7 o'clock this evening at Depot Hotel. Many claim that Ballot Box broke down. Others that it was a foul. Majority of persons hold to the former opinion.

Second race—running—the entries were Sooner, April Fool and Earnest. Pools sold as horses named. First heat won by Sooner. Time 1:47. Sooner favorite in pool for second heat.

Jottings.

Attendance last evening at the pavilion was very large. The display surpasses any previous exhibition in Nevada and compares most favorably with the pavilion display at Sacramento. In point of variety several gentlemen say that it is equal to that of the State Fair of California.

The New Orleans Minstrels are drawing good houses nightly. They are too funny for anything. Reno Opera House is the place. Admission one dollar. See our small sheet for particulars.

Scott's grand ball to-night will be a very enjoyable affair. Nine musicians furnish the music. Two dollars admission. Dancing to commence at 10 o'clock promptly. Kimball's hall is the place.

We gave credit to Mrs. S. N. Davidson for placing on exhibition at the pavilion pillow shams and deceiver. Mrs. I. Barnett is the lady.

Governor L. R. Bradley is in town. The grand old gentleman is enjoying the Fair. He is as young in spirit as a boy and would surprise few did he attend the Fair ball.

Message at Western Union for J. R. Tracy.

THEATER—KATIE MAYHEW.—A grand entertainment will be given to-morrow evening at Smith's Academy of Music. Miss Katie Mayhew, the noted actress, will appear in that celebrated play "Fanchon," personating the character of Fanchon, the cricket. She will be supported by a troupe of ten star performers. Miss Mayhew was greeted with crowded houses in Virginia City and was highly complimented by the press. Go and see her, everybody. Admission \$1, reserved seats \$1.50. See the GAZETTE Programme for full particulars.

GROWLER.—The editor of the Truckee Republican growls that he did not have any of the printing to do for the State Fair, and has received no comp. The printing he could not well receive, but we presume that his not receiving a comp. was an unintentional oversight on the part of the Secretary. The exhibitions from the Truckeites at the pavilion are elegant, especially Mrs. F. Burckhalter's painting of Yosemite. Ford, you growl too loud, come down to our Fair and enjoy yourself.

Remember the Panorama of the Apocalypse at the Baptist Church to-night. Admission 50 cents.

SEASON TICKET.—Parties who desire more than one entrance per day on season tickets should notify the gate keeper. It will be seen at a glance that this is for the purpose of preventing an improper use of such tickets, and all concerned will please take notice.

County Statistics.

Through the kindness of the County Auditor and Assessor we are enabled to present to our readers the following interesting statistical items:

After the Board of Equalization had determined the values of taxable property in the county, the Assessor's roll passed into the hands of the Auditor. He footed up accounts and put the books in order for the Tax Collector, passing them into his hands last Monday morning.

We glean therefrom that the personal property upon which tax has already been collected amounts to \$214,710 50; tax yet to be collected on real estate, \$2,236,983; on personal, \$1,121,323; total taxable property, \$3,573,016 50. State tax on this amount is \$32,157 15, county tax the same; State and county tax being 90 cents each on the hundred dollars of taxable property. For the fire department of Reno the tax is \$2,266 72, or one-fourth of one percent., from which we see that the value of taxable property within the fire limits is \$906,688. Special tax for North Truckee School District amounts to \$328 56; Peavine School District, \$487 18.

Last year the personal property of the county was valued at \$1,242,723; real estate, \$2,024,726; total, \$3,267,449. It will be seen from the above figures that there has been a gain during the year, both in real and personal property, aggregating \$305,567 50. The valuation of town property last year was \$724,792, or \$181,896 less than this year. Thus it will be seen that although the past year has been an unfavorable one for the increase in the valuation of property, Washoe county has added to her taxable property over \$300,000. The county has increased in population nearly 500, and now numbers about 5,000 inhabitants, with 1,564 registered voters.

The following statistics will show more definitely of what our resources consist. Of course the amounts given are only approximations, but they have been very carefully compiled and are nearly correct:

Land under cultivation, 19,000 acres; (2,000 more than last year); enclosed, 36,000 acres; wheat produced on 400 acres, 4,500 bushels; barley, 400 acres produced 8,600 bushels; oats, 750 acres, 13,000 bushels; rye, 10 acres, 60 bushels; corn, 40 acres, 130 bushels; potatoes, 800 acres, 77,000 pounds; onions, 3 acres, 455 bushels; cabbage, 8 acres, 20 tons; hay, 15,600 acres, 30,000 tons; butter, 42,000 pounds; wool, 88,000 pounds; beets, 19 tons; turnips, 26 tons; apple trees, 62,400; peach, 1,000; pear, 700; plum, 665; cherry, 520; quince, apricot and fig, 130; mulberry, 200; walnut, 400; elm, 50; gooseberry plants, 4,000; raspberry, 3,000; grape vines, 7,000; currants, 10,000; strawberry, 25,000.

There is one brewery brewing 20,000 gallons. Live stock—2,800 horses, 425 mules, 1,600 cows, 900 calves, 1,500 beef cattle, 218 oxen, 10 bulls, 3,000 sheep, 362 cashmere and angora goats, 690 hogs, 5,000 chickens, 150 turkeys, 250 ducks and 675 beehives, producing 13,500 pounds of honey.

One grist mill, 2 stones, grinding 5,000 barrels of flour, 1,600 bushels of corn and 6,000 bushels of barley.

Five sawmills, sawing 5,000,000 feet of lumber and 100,000 shingles.

Two planing and one quartz mill. Ditches—One mining ditch, three miles long and twenty-six irrigating ditches, in the aggregate irrigating 20,000 acres of land. Value of ditches \$300,000.

Railroads, two—C. P. R. R., 52.30 miles, assessed value, \$715,423; V. T. R. R., 25.65 miles; total assessed value, \$282,500; total of two roads, \$993,923.

Wood flumes, six, in aggregate 53 miles long, amount flumed, 150,000 cords of wood.

Approximate area of agricultural land 95,000 acres, grazing land 900,000 acres, timber land 40,000 acres, mineral land 10,000 acres.

In addition to the above we have the necessary buildings and corrals erected and grounds cleared for the slaughtering of cattle sheep and hogs, and their shipment as dressed meats in refrigerator cars to markets already opened. The company capital stock is \$500,000, and they propose to commence operations between now and the first of next month.

It may be asked why with a water fall (Truckee river) of over thirty feet to the mile, that we do not have a woolen mill, tannery, etc., now in operation. These will come, and we believe not many months hence. With increasing demand the matter of improved supply is only a question of time. The route for a direct railroad from here to Virginia City is now being surveyed. A railroad will no doubt be run north into California to connect at Oroville with the Oroville branch, narrow gauge, to the Oregon and Cal. railroad, thus making the termini Reno and Marysville.

In mining, agriculture and manufactures, we present an inviting field. We are just beginning to grow.

WATCHES!! JEWELRY!!
ROMAINE GOLD.
SO EXTENSIVELY WORN IN PARIS,
was first discovered in 1870, by the cele-
brated French chemist, Mons. D. Be. De-
launay, who manufactured it into jewelry, and for five
years sold it to the leading jewelers of Paris
for Solid Gold. In 1875, when his secret be-
came known, ten of the manufacturing jew-
elers established a stock company, with a cap-
ital of \$100,000, for the purpose of manufac-
turing Romaine Gold Jewelry and
Watches. With this immense capital and
the aid of improved machinery, they are en-
abled to produce all the latest patterns of jew-
elry at less than one-tenth the cost of solid
gold, and of a quality and color which makes
it impossible even for experts to detect it from
the genuine.
We have secured the exclusive agency
of the United States and Canada, for the
sale of all goods manufactured from this
metal, and in order to introduce them in the
most speedy manner, have put up assorted

DR. L. J. CZAPKAY'S
Private Medical Institute.
Established in 1854.
For the Permanent Cure of all Special
and Chronic Diseases, in all
Female Complaints and
Diseases of the Ner-
vous System.
THE IMMENSE DESTRUCTION OF
human life annually from secret and
chronic diseases, caused this old and reliable
Institution to be established, first in Philadel-
phia, Penn., in 1854, and afterwards in San
Francisco, Cal., in 1854, as a private dispensary,
in order to afford the afflicted the best
medical and surgical treatment, for the above
and all other affections and complaints. Com-
pensation at the Institute, or by letter, FREE.
To the Afflicted:
Dr. L. J. Czapkey would most respectfully
inform the public of the Pacific coast that, at
the earnest solicitation of his numerous
friends, and hundreds of those unfortunately
afflicted with disease, he has reopened his
MEDICAL AND SURGICAL INSTITUTE
and resumed the practice of his profession.
The doctor would remind all those who are in
need of medical aid, that since relinquishing
his very extensive and successful practice in
San Francisco, he has visited the principal
cities in Europe, inspecting diligently the ex-
perience of the most learned in the profession,
the benefit from which he offers to all in need
of his services. Rheumatic affections, chronic
catarrh, diseases of the stomach and kidneys,
liver complaints, etc., successfully treated.
Those who are suffering from the errors and
indiscretions of youth, nervous weakness,
physical and mental debility, are assured of a
permanent cure. Charges moderate. All
communication strictly confidential. Medi-
cines sent by express. Address,
